

Plattsburg Public School Learning from Home

Purple Numeracy

Kamilaroi

Dear parents,

If any task is proving difficult your child may leave it and move on. There is no need to cause frustration in the house.

If the Physical Challenges are exhausting, please stop.

Hopefully see you all soon.

Mr H

Public Holiday -Don't worry about Monday's work it has just been left in case you wanted to swap a different lesson later in the week.

Monday

Pirate Counting in 2s Dot to Dot

Join the dots to reveal the full picture!

Physical Challenge: Get an adult's permission and your paintbrush and water. If you are allowed head outside, using the water, paint all the numbers from 50-120. If you cannot go outside can you paint the numbers on an old piece of paper or cardboard?

How did you get there - Number Sentence

Count how much money you have.

Billy spends \$4 to buy a lemon. How many lemons can he buy with \$12?

Year 1 Time Sheet

What time is it?

On the clocks below, draw on the hands to show what time you get to school on the left and on the right show what time you finish school.

Telling the Time Board Game

What time is it?

Roll a dice, move the number of spaces shown and read aloud the time shown on the clock. The first player to complete the board wins!

You can play this game with an older person in your house to help you practice!
If you don't have a dice, you can move by 1 square each turn!

If you want an extra challenge, have your partner time how long it takes you to complete this game.

Start				Miss a turn		
						
Miss a turn					Miss a turn	
						
						Miss a turn
						
End				Miss a turn		

Friday

More or Less Secret Number.

- Put a finger on 0 and a finger on 30
- Pick a number from the number line but keep it a secret
- Have a friend guess the secret number. You can only answer their guess with 'more' or 'less'.
- They get 5 guesses to pick your secret number. If they do, they get a point. If they can't guess it, you get a point.

After each game write your secret number.

Interpreting Scaled Pictograms

Learning Objective: I can interpret scaled pictograms

Favourite Fruit

Answer the following questions.

What is the favourite fruit? _____

How many children chose apples as their favourite fruit? _____

How many more children chose bananas than grapes, as their favourite fruit? _____

How many children chose apples or pears as their favourite fruit? _____

Write your own questions for a friend.

PICTURE GRAPHS 3B - AT THE PIE SHOP

A pie shop sells a range of different pies. Here are the sales figures for the number of pies sold for each day in a week.

Each  represents 1 pie sold

Monday							
Tuesday							
Wednesday							
Thursday							
Friday							
Saturday							

- 1) How many pies were sold on Thursday? _____
- 2) Which day were the most pies sold? _____
How many pies were sold on that day? _____
- 3) How many more pies were sold on Tuesday than Wednesday? _____
- 4) There were more pies sold on the last two days than the first four days. True or false? _____
- 5) How many pies were sold in total that week? _____

I can make the number you say.

Physical Challenge: Number Race: Set out your number cards at one end of the room or yard if your allowed outside. Have an adult say any number. You need to race to your card and build that number

Write the numbers you made.

Cut out these cards to then make the numbers.

0	1	2	3	4
5	6	7	8	9
0	1	2	3	4
5	6	7	8	9

Well done! You have completed all Maths work for this week. The next pages are optional for those who want to keep their brains busy! Have a wonderful weekend and stay safe!

Somethings
Extra!

Hands On or Game options

These are choice activities.
You do not need to do
these.

Lawn Darts

If you are allowed outside this is a great addition or subtraction game.

- Using clothes pegs, peg the numbers 0-9 on their own peg and place them on the grass.
- 0 is the closest, then 1, then 2 and so on. Each number should be 1 step further away from the throwing spot.
- Each player has 3 pegs to throw at the numbers.
- If the peg you throw hits a number, you get that many points.
- Once you have thrown all 3 pegs add the amounts together.
- The first player to get exactly 21 points wins.

(Too easy increase the winning target to 50)

- This can be reversed to subtraction.
- Each player starts at 21 points.
- If you hit a number than subtract that from your total.

The first player to get exactly 0 wins.

Carpet Bowls

- The same as 'Lawn Darts' but played inside with rolled up socks.
- The socks need to be rolled underarm at the numbers.

Towers

-Using clothes pegs build a structure that can stand by itself for 3 seconds. Each peg you use is worth 2 points. Who will be the Family Champion?

Sock Bocce

Each player gets 3 or 4 sock balls. There is one "Pallina" this is a special ball that is the target and is placed in a chosen location in the playing area.

The goal is to get your sock balls closest to the "Pallina".

1. Choose a throwing spot where each player throws from.
2. The throw must be underarm (unlike a normal throw your fingers will be pointing down with the back of your hand facing the "Pallina").
3. Scoring – Closest gets 5 points, 2nd closest 3 points, 3rd closest 1 point. (This can be adjusted to suit the family)
4. After each player has thrown all their sock balls, the person whose ball is closest to the "Pallina" gets to relocate it to a new spot.

Winner first player to score over 20 points. (Too easy? Increase the total to suit)

Little Acorns Addition to 10 Colour by Number

Solve the calculations to work out which colours to use.

$1 \text{ \& } 2 = \text{green}$

$3 = \text{blue}$

$4 = \text{red}$

$5 = \text{orange}$

$6 = \text{yellow}$

$7 = \text{dark red}$

$8 = \text{dark brown}$

Make it, Build it Relay.

Carefully cut or tear out the MAB blocks and number cards.

Lay the MAB blocks out at one end of the room/area you are working. Lay the number cards out at the other end. Have an adult say a number. You need to race off and build that amount using the tens and ones MAB blocks. Then race off and show that number on the number cards.

0	1	2	3	4
5	6	7	8	9

Monday

1. $7 + 2 =$ _____

2. $6 - 4 =$ _____

3. $2 + 9 =$ _____

4. Write these numbers in order from smallest to largest: 4, 12, 89, 31. _____

5. Complete this counting pattern: 2, 7, 12, 17, _____, _____, _____

6. I bought 5 balls and was given 4 more balls. How many balls do I now have? _____

7. In a group of 11 students, 6 would like to play baseball and the rest want to play American football. How many want to play American football? _____

8. Draw a line to split this shape in half.

9. What digital time does the clock show? _____

10. Circle the corners on this shape.

Tuesday

1. $1 + 8 =$ _____

2. $3 - 1 =$ _____

3. $4 + 6 =$ _____

4. What is the number in the ones place in 19? _____

5. Complete this counting pattern: 2, 12, 22, 32, _____, _____, _____

6. Add 6 and 9 together: _____

7. Chase had 6 toy racing cars and was given 8 more toy racing cars. How many toy racing cars does Chase now have? _____

8. Colour in half of these triangles.

9. At 1 o'clock, the hour hand points to _____.

10. Circle the corners on this shape.

Wednesday

1. $8 - 4 =$ _____

2. $6 + 0 =$ _____

3. $5 + 5 =$ _____

4. Write these numbers in order from smallest to largest: 39, 33, 44, 22. _____

5. Complete this counting pattern: 9, 11, 13, 15, _____, _____, _____

6. Subtract 3 from 4: _____

7. In a group of 14 students, 5 would like to play cricket and the rest want to play tennis. How many want to play tennis? _____

8. Colour in half of this shape:

9. At 4 o'clock, the hour hand points to _____.

10. How many corners does this shape have?

Thursday

1. $8 - 5 =$ _____

2. $7 + 1 =$ _____

3. $3 + 4 =$ _____

4. What is the value of the number in the ones place in 86? _____

5. Complete this counting pattern: 0, 5, 10, 15, _____, _____, _____

6. If 11 trucks are parked, 5 are orange and the rest are pink, how many are pink? _____

7. What is the sum of 6 and 2? _____

8. Draw a line to split this shape in half.

9. At 2 o'clock, the hour hand points to _____.

10. Circle the corners on this shape.
