Three sad elephants

Once upon a time there were three big elephants. They lived in the jungle.

The elephants were very sad. They didn't have any friends.

They asked the lion, 'Will you be our friend?'

'No,' said the lion, 'you are too slow to play with me'.

So they asked the monkeys, 'Will you be our friends?'

'No,' said the monkeys, 'you are too clumsy to play with us'.

Then they asked the crocodile, 'Will you be our friend?'

'No,' said the crocodile, 'you can't swim, so you can't play with me'.

Then they asked the zebra, 'Will you be our friend?'

'No,' said the zebra, 'you are too big to play with me'.

So they asked the hippo, 'Will you be our friend?'

'Yes,' said the hippo, 'I can play with you'.

The elephants were happy because they had a friend to play with.

Whales

Whales are very large animals that live in the sea. Whales are not fish. They are mammals and breathe air.

Every now and then they must come up to the surface for a breath of air. Most whales breathe every five to ten minutes. The sperm whale can stay under the water for an hour!

There are two types of whales. One type has teeth and eats all kinds of fish. The other type does not have teeth and feeds on tiny plants and animals.

Some whales live in family groups of two or three. Other whales live in large groups called herds, schools or pods. The largest and fastest whale is the blue whale.

Use key words to make notes about whales.
These questions will help you.
