

Mathematics – Week Two

Monday

Tuesday

Wednesday

Thursday

Friday

Online Learning

Task 1: Number Hunt

With your adult, go for a walk around your neighbourhood hunting for numbers along the way. You could spot numbers on front doors, gates, buses, cars, posters.

Task 1: Number Bubble Game

* Draw lots of chalk circles on the ground outside, with a number inside each (1 to 10). Have your adult or a friend call out a number and you have to find a circle (bubble) with that number and stand in it.
Note: If you don't have chalk, you can use paper and pencils instead.

Task 1:

* At home, collect 10 objects like sticks, rocks, blocks or small toys like cars. Once you have your items, share them evenly between you and one other person.

Task 1:

* Find 10 objects at home. They can be anything from Lego, toy cars, fruit, clothes, even buttons or beads.

Group these objects together into colours, size or shape groups.

Task 1:

* Draw 10 ladybugs on a piece of paper and number them. Look at the number underneath the ladybug, draw that many spots on the ladybug's wings.

Note: You could also use stickers for the spots if you have them. You could also draw tail feathers for a bird or eyes on a monster. You could even glue googly eyes on the monster if you have those at home.

Extension:

Write down two numbers that add together to get the number of spots (from one side of the wings + the other side of the wings).

Example: $2 + 1 = 3$ spots

Task 2:
* Write down numbers 0-10 onto small squares of paper. (Each square of paper has one number on it). Mix up the numbers and put them back into the right order from 0-10.
0 1 2 3 4 5 6 7 8 9 10

Extra Task:
Play this number game online

Task 2: **Giant dot-to-dot**
Get your adult to make your own giant dot-to-dot in your backyard, by drawing numbers with chalk on the ground in the shape of a picture.

Task 2: **Musical Number Freeze**
This is a musical variation of the bubble game. Get your adult to lay some pieces of paper with the numbers 1 -10 on the floor (you can use the number cards that were sent to you). Play some music and dance around; when your adult stops the music, they will call out a number and you have to jump onto that number on the floor.

Task 2:
Draw a picture of a running race with 5 people, animals or cars in the race.
Label who came 1st, 2nd, 3rd, 4th and 5th.
