

Mathematics – Week Three

Monday	Tuesday	Wednesday	Thursday	Friday
Online Learning				
<p>Activity 1 Click on the Studyladder link which is found in the resources section of Google Classroom. Watch the video on making equal 'groups of 5'.</p> <p>Your Turn: Again, click on the Studyladder link which is found in the resources section of Google Classroom.</p> <p>Open the 'Groups of 5' questions and complete.</p>	<p>Activity 1 Click on the Studyladder link which is found in the resources section of Google Classroom. Watch the video on making equal 'groups of 3'.</p> <p>Your Turn: Again, click on the Studyladder link which is found in the resources section of Google Classroom.</p> <p>Open the 'Groups of 4' questions and complete.</p>	<p>Activity 1 Click on the Studyladder link which is found in the resources section of Google Classroom. Watch this video on making equal rows of 4.</p> <p>Your Turn: Again, click on the Studyladder link which is found in the resources section of Google Classroom.</p> <p>Open the 'Rows of 5' questions and complete.</p>	<p>Activity 1 Click on the Studyladder link which is found in the resources section of Google Classroom. Watch this video on making equal 'rows of 10'.</p> <p>Your Turn: Again, click on the Studyladder link which is found in the resources section of Google Classroom.</p> <p>Open the 'Rows of 10' questions and complete.</p>	<p>Activity 1 Click on the Studyladder link which is found in the resources section of Google Classroom. Complete</p> <p>'Groups and rows of 5' printable activity</p> <p>'Groups and rows of 10' printable activity.</p>
<p>Activity 2 Click on the Studyladder link which is found in the resources section of Google Classroom.</p> <p>Open the 'arrays' questions.</p> <p>Your Turn: Answer the questions about the following arrays:</p>	<p>Activity 2 <u>Making Equal Groups</u> Using Microsoft Word, create the following equal groups. Insert a 'shape of your choice.</p> <p><u>For example- I chose circles.</u></p> <p>2 Groups of 5</p> <p>Group 1</p> 	<p>Activity 2 <u>Making Equal Rows (Arrays)</u> Using Microsoft Word or the Paint Program on a computer, create the following equal rows.</p> <p>Answer the question for each set of rows.</p> <p>1.  How many rows are there?</p> <p>2. </p>	<p>Activity 2 Yesterday we counted the number of rows in each array. Today I would like you to tell me: -how many circles are in each row. - how many circles are there all together.</p> <p>Draw the arrays on your computer.</p> <p>1.  How many circles are in each row?</p>	<p>Activity 2 Using the 'Paint' program on your computer. Write 10 of your own questions using arrays and write the number sentence below each one.</p> <p>Example:</p>  <p>5 x 2 = 10</p> <p>Get them checked by someone else in your house.</p>

Group 2

Label each group like I have.

Questions:

1. 6 groups of 4
2. 7 groups of 2
3. 9 groups of 1
4. 13 groups of 3
5. 8 groups of 6

How many rows are there?

3.

How many rows are there?

4.

How many rows are there?

5.

How many rows are there?

How many circles are there all together?

2.

How many circles are in each row?

How many circles are there all together?

3.

How many circles are in each row?

How many circles are there all together?

4.

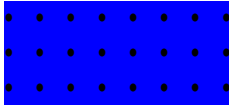

How many circles are in each row?

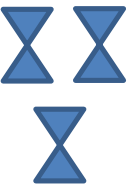

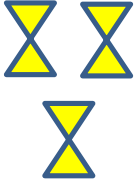

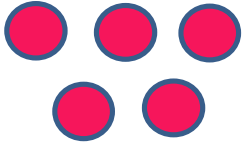

How many circles are there all together?

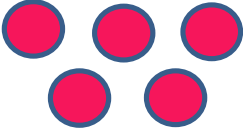

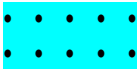

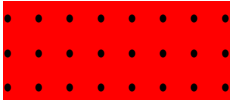

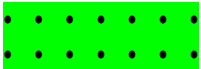

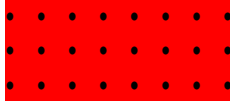

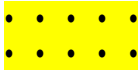

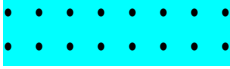

5.

			<p>How many circles are in each row? How many circles are there all together?</p> <p>6.</p>  <p>How many circles are in each row? How many circles are there all together?</p> <p>7.</p>  <p>How many circles are in each row? How many circles are there all together?</p>

Non-Digital Learning

<p>Activity 1 <u>Making Equal Groups.</u> Using pegs or something similar, see if you can make 2 even groups with 3 pegs in each group.</p> <p>Your groups should look like this.</p> <p>Group 1. </p> <p>Group 2. </p>	<p>Activity 1 <u>Making Equal Groups</u> Using your paper and pencils, make the following groups by drawing circles. Record the example in your book. e.g. 2 groups of 5</p> <p>Group 1</p> 	<p>Activity 1 <u>Making Equal Rows</u> Using pegs or something similar, give someone else in your house a verbal instruction to make the following even rows of items.</p> <p>e.g. Make me 2 rows of 3</p>  <p>Questions.</p> <ol style="list-style-type: none"> 2 rows of 5 4 rows of 7 	<p>Activity 1 <u>Making Equal Rows</u> Make a list of instructions for how to make even rows of items. Write 5 questions to ask someone else in your house.</p> <p>e.g. Make me 6 rows of 2</p> <p>Questions</p> <ol style="list-style-type: none"> 	<p>Activity 1 Draw the following groups.</p> <ol style="list-style-type: none"> 3 groups of 8 5 groups of 10 4 groups of 2 7 groups of 3 9 groups of 4 <p>Draw the following even rows.</p> <ol style="list-style-type: none"> 3 rows of 5 7 rows of 2 9 rows of 5 10 rows of 2 4 rows of 3
--	---	--	---	--

<p>Questions: Can you make the following groups using things in your house (pegs, pencils). You can choose what you use for your groups.</p> <ol style="list-style-type: none"> 3 groups of 4 5 groups of 2 6 groups of 1 2 groups of 8 5 groups of 6 	<p>Group 2</p>  <p>Questions:</p> <ol style="list-style-type: none"> 6 groups of 4 7 groups of 2 9 groups of 1 13 groups of 3 8 groups of 6 	<ol style="list-style-type: none"> 9 rows of 2 1 row of 12 3 rows of 6 	<ol style="list-style-type: none"> 	
<p>Activity 2 Using different items in your house, make the following arrays. You could use pegs, pencils or even your toys.</p> <p>Then answer how many rows there are in each array.</p>  <p>How many rows are there?</p>  <p>How many rows are there?</p> 	<p>Activity 2 Yesterday we counted the number of rows in each array. Today I would like you to tell me: -how many circles are in each row. - how many circles are there all together.</p>  <p>How many circles are in each row? How many circles are there all together?</p> 	<p>Activity 2 Using different things in your house, create an array for the following questions. You could use pegs, pencils or even your toys.</p> <p>e.g. Example: 2 rows of 5</p>  <p>So 5 x 2 = 10</p> <p>Questions:</p>	<p>Activity 2 Draw the following arrays using colourful circles in your book. Then count how many circles you have all together.</p> <ol style="list-style-type: none"> 4 rows of 6 10 rows of 5 6 rows of 7 8 rows of 3 3 rows of 8 	<p>Activity 2 Draw and label the following arrays.</p> <p>Example:</p>  <p>8 x 2 = 16</p> <ol style="list-style-type: none"> 8 rows of 5 3 rows of 2 4 rows of 5 9 rows of 2

	<p>How many circles are in each row? How many circles are there all together?</p>	<p>1. 6 rows of 3 So $6 \times 3 = 18$</p>		<p>5. 11rows of 4</p>
<p>How many rows are there?</p>		<p>2. 4 rows of 2 So $4 \times 2 = 8$</p>		
		<p>3. 2 rows of 10 So $2 \times 10 = 20$</p>		
<p>How many rows are there?</p>	<p>How many circles are in each row? How many circles are there all together?</p>	<p>4. 3 rows of 3 So $3 \times 3 = 9$</p>		
		<p>5. 8 rows of 4 So $8 \times 4 = 32$</p>		
<p>How many rows are there?</p>				
				
<p>How many rows are there?</p>	<p>How many circles are in each row? How many circles are there all together?</p>			
				
<p>How many rows are there?</p>				
	<p>How many circles are in each row? How many circles are there all together?</p>			

	 <p>How many circles are in each row? How many circles are there all together?</p>			
	 <p>How many circles are in each row? How many circles are there all together?</p>
