

Wk 4 Friday Activity 1

Maths Mastery

Place Value Number Problems

87 000

It is _____ less than 90 000.

It is _____ less than 100 000.

It is made of _____ thousands.

It is made of _____ hundreds.

Count backwards in ten thousands. Write the sixth, seventh and eighth numbers in the sequence.

Write a similar set of questions for a partner.

What's the Temperature?

Here is a table showing the temperature each morning for a

Day	Mon	Tues	Wed	Thurs	Fri	Sat	Sun
Temp ($^{\circ}\text{C}$)	-4	3	-2	-1	8	6	0

1. When was the coldest morning?
2. When was the warmest morning?
3. Which morning saw the largest change in temperature from the previous morning?
4. Place the temperatures in order from lowest to highest?

Create your own table of temperatures and write some questions for a partner.

The Population

The population of Australia in 2016 was 22 342 400.

1. Round the NSW, Victoria, Qld, South Australia and Australia totals each to the nearest one million.
2. Round Tasmania, ACT and Northern Territory each to the nearest 100 000.
3. Round the population of Qld and South Australia to the nearest 100 000. What is the difference?

NSW	7 618 200	
Victoria	5 938 100	
Qld	4 779 400	
South Australia	1 644 600	
Tasmania	507 600	
ACT	390 800	
Northern Territory	244 600	
Australia	22 342 400	

Write some of your own questions.

293 293

Write the number in words.

It is _____ less than 300 000.

It is _____ less than 1 000 000.

It is made of _____ ten thousands and _____

It is made of _____ thousands and _____

Count forwards in hundred thousands. Write the seventh and the eighth numbers in the sequence.

Using another 6 digit number, write some questions for a partner.
